**Other Business Not Anticipated: Purgatory Road Development:**

Ron San Souci of 93 Purgatory Road is concerned about a 30 house cluster development that is proposed at 81 Purgatory Road and he has concerns about the impact on existing wells. He is experienced with groundwater and he has concerns about water quality and where the driller hits the veins. He is comparing this to a well field since this is proposed 30 houses on smaller lots. He also feels they should split the water samples between two different State labs as in his experience sometime the results differ from lab to lab. Ron stated 19 to 20 houses could be impacted. The Board stated this project has not yet come before them. Steve stated we will get from planning for comment. Pam Nichols stated this is in the preliminary stages with the planning department.
