PRESS RELEASE

The Town of Sutton, MA has hired Vision Government Solutions Inc. to help complete its ongoing data collection program. The project will commence this June with data collectors visiting a group of properties to record exterior measurements and conduct inspections. Due to the current COVID-19 situation, data collectors will do the exterior and interview the homeowner at the door when the owner is home. Data collectors will carry a letter of identification from the Assessor's Office, a photo ID badge and have their cars registered with the Police Department. All property owners and tenants are respectfully requested to cooperate with data collectors to insure that accurate information is used in the revaluation process.

Any property owners who have questions concerning the data collection process can contact the Assessor's Office during working hours at 508-865-8722.
