**RE: Lifesong Church Dumpster Relocation  
Lifesong Church - Gilmore Drive**

Dear Director Hager:

Noted below is the summary of the proposed changes reflected on the attached (separate cover): Revised C-4 drawing dated February 21, 2023. The plan revision notes the changes required for the dumpster relocation for the Lifesong Church project. The intent is to relocate the dumpster from the front of the church, full view, to the rear of the church and out of view.

Rear of Building New Dumpster location - **Drawing Insert A**

- Modified new sidewalk as shown
- Existing curbing to remain
- Existing pavement to remain
- Delete flush curbing
- Furnish and install new precast curbing
- Patch and pave area
- Install new CB in corner, tie into new 12" drain line installed for building
- Install new 8" dumpster pad

First the front of the building, existing dumpster location - **Drawing Insert B**

- Dumpster removal by owner
- Demolish and dispose existing dumpster enclosure (CMU)
- All existing stone veneer to remain
- Add precast concrete curb 6' off face of new building, running between stairs and existing building
- Fill planter with screened loam to 6" below top of curb
- Raise spot elevations at bottom of curb @ existing building to 419.6 confirming water flow around island to existing CB2
- Raise spot elevations along front of building 6" to assure good sheet drain.

I tried to make sure my narrative was thorough and complete, however the actual scopes of work are minor in nature. Not being 100% certain if this would be considered a field change or if a Site Plan Waiver would be required, I have attached a fully executed copy of the Site Plan Waiver Application in the event it is required. Thank you for your time and consideration.

Sincerely,

*Eric S. Arthur*
