Subject: Environmental Notification Form Filing for CRG Cubes @ Pyne, Douglas-Sutton, MA
Date: Wednesday, February 15, 2023 8:11:08 AM

On behalf of the Proponent, CRG Services Management LLC, I am pleased to submit an ENF for a proposed warehouse development at 150 Gilboa Street in Douglas, MA. The Project involves constructing three warehouses, totaling approximately 2,815,664 square feet, abutting Route 146.

The ENF can be downloaded using this link: <https://epsilon.sharefile.com/d-s1e880f7bac3e4ef5bc52b68e7a19d8b9>

The Proponent expects the ENF will be noticed in the *Environmental Monitor* on the MEPA website <https://eeaonline.eea.state.ma.us/EEA/MEPA-eMonitor/home> on February 24, and **that comments will be due by March 16, 2023.**

If you wish to submit comments on the filing, they should be addressed to:

Rebecca Tepper, Secretary
Executive Office of Energy and Environmental Affairs
100 Cambridge Street, Suite 900
Boston, MA 02114

You may also comment directly online at the MEPA website:

<https://eeaonline.eea.state.ma.us/EEA/PublicComment/UI/searchcomment>

If you would like a paper copy of the document, please e-mail me at cylons@epsilonassociates.com.

Thank you for your interest in this project.
