**Subject: Sutton City Gate Station, Oakhurst Road  
As-Built Plan and Construction Completeness Review**

Dear Jen:

We received the following documents via email on June 27, 2022:

- Correspondence from Tri-Mont Engineering, Co. to Town of Sutton Planning Board and Department dated June 27, 2022 RE: Eversource Energy, Sutton Gate Station, Certification Letter for As-Built.
- Plan entitled NSTAR Gas Company D/B/A Eversource Energy, Sutton City Gate Station As-Built Plan, Town of Sutton, Worcester County, Massachusetts dated June 23, 2022, prepared by Tri-Mont Engineering, Co. (3 sheets)

Graves Engineering, Inc. (GEI) has been requested to review the as-built plans for conformance with the approved construction plans dated August 19, 2020 and last revised February 10, 2022 and approved site plan modifications. GEI performed site visits in December 2021 to observe stormwater management infrastructure construction, and to monitor for general conformance with the approved construction plans. As part of this as-built plan and construction completeness review, GEI visited the site on July 8, 2022.

**Our comments follow:**

1. Per GEI's review of the as-built plan and observations during our site visits, the site appears to have been constructed substantially in accordance with the approved plans and modifications.

We trust this letter addresses your review requirements. Feel free to contact this office if you have any questions or comments.

Very truly yours,  
**Graves Engineering, Inc.**
